#### *Management's Responsibility for Financial Statements*

#### *Auditor's Responsibility*

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

**BLUERUSH MEDIA GROUP CORP.**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED JULY 31, 2011 AND 2010**

**I. NATURE OF BUSINESS**

BlueRush Media Group Corp. ("BlueRush" or the "Company") with its head office in Toronto, Ontario, was incorporated on April 6, 2004 pursuant to the Business Corporations Act (Ontario). The Company, through its wholly owned subsidiary, BlueRush Digital Media Corp. is a digital marketing company which combines leading edge technology with award winning creative television production.

**2. SIGNIFICANT ACCOUNTING POLICIES**

Management has prepared these consolidated financial statements in Canadian dollars and in accordance with Canadian generally accepted accounting principles ("GAAP"). The significant accounting policies are as follows:

**Basis of Presentation**

The consolidated financial statements include the accounts of BlueRush and its wholly owned subsidiary, BlueRush Digital Media Corp. All intercompany accounts and transactions have been eliminated on consolidation.

**Revenue Recognition**

The Company generates revenue from the creation of rich media marketing solutions. The Company's solutions are quite robust in nature as each project requires a technological, graphical and consultative component. The Company recognizes revenue related to these projects based on the completion of certain milestones during the project. These milestones are mutually set by the Company and its customers. Upon confirmation from the customer of the Company meeting the milestones, the Company will recognize revenue for the work completed at that point in time.

Differences between timing of billings, based on contract milestones and the recognition of revenue, are recognized as unbilled accounts receivable or deferred revenue. Work performed on contracts where the contract milestones have not been met are recognized as work in process.

**Stock-Based Compensation Plan**

The Company has a stock-based compensation plan which is described in note 6. Any consideration received on the exercise of stock options is credited to share capital. The Company records compensation expense and credits contributed surplus for all stock options granted. Stock options granted during the year are accounted for in accordance with the fair value method of accounting for stock-based compensation. The fair value for these options is estimated at the date of grant using the Black-Scholes option pricing model.

**BLUERUSH MEDIA GROUP CORP.**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED JULY 31, 2011 AND 2010**

**2. SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Earnings (Loss) Per Share**

Basic earnings (loss) per common share is determined by dividing net income (loss) attributable to common shareholders by the weighted average number of common shares outstanding during the year. Diluted earnings (loss) per common share is calculated in accordance with the treasury stock method and is based on the weighted average number of common shares and dilutive common share equivalents outstanding. This method assumes that any proceeds received from in-the-money options and warrants would be used to buy common shares at the average market price for the period.

**Equipment**

Equipment are recorded at cost and are amortized over their estimated useful lives, at the following annual rates and methods:

Computer equipment	30% declining balance
Furniture and fixtures	20% declining balance

**Impairment of Long-Lived Assets**

Long-lived assets are comprised of equipment. The Company recognizes an impairment loss for a long-lived asset when events or changes in circumstances cause its carrying value to exceed the total undiscounted cash flows expected from its use and eventual disposition. An impairment loss is measured as the excess of the carrying value of the asset over its fair value.

**Research and Development Costs**

Research costs are expensed in the period incurred. Development costs are expensed in the period incurred unless a development project meets generally accepted criteria for deferral and amortization. Research and development costs are comprised of wages and benefits. No development costs have been deferred as at July 31, 2011 and 2010.

**Investment Tax Credits**

As estimate of the refundable investment tax credit on scientific research and development expenditures is recorded in the year the expenditures are incurred provided there is reasonable assurance that the credits will be realized. The expenditures are reduced by the amount of the estimated investment tax credit.

**BLUERUSH MEDIA GROUP CORP.**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED JULY 31, 2011 AND 2010**

**2. SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Income Taxes**

The Company follows the liability method of tax allocation in accounting for income taxes. Under this method, future tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Future tax assets and liabilities are measured using enacted or substantially enacted tax rates expected to apply to taxable income (loss) in the year in which those temporary differences are expected to be recovered or settled. When the future realization of income tax assets does not meet the test of being more likely than not to occur, a valuation allowance in the amount of the potential future benefit is taken and no net future tax asset is recognized.

**Financial Instruments**

The Company has classified its financial instruments as follows:

<u>Financial Instruments</u>	<u>Classification</u>
Cash	Held for trading
Accounts receivable	Loans and receivables
Accounts payable and accrued liabilities	Other financial liabilities
Advances to (from) related party	Other financial liabilities

Financial assets and liabilities classified as held for trading are measured at their fair value as at each reporting date with changes in fair value included as a component of net income.

Financial assets classified as loans and receivables and liabilities classified as other financial liabilities are measured at amortized cost using the effective interest method.

**Financial Instruments - Fair Value Hierarchy**

The Company has a three-tier hierarchy as a framework for disclosing fair value based on inputs used to value the Company's investments. The hierarchy of inputs is summarized below:

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities. An active market is one in which transactions for the assets occur with sufficient frequency and volume to provide pricing information on an ongoing basis (the Company has included cash under this category);

Level 2 - inputs other than quoted prices included in Level 1 that are observable for the asset or liability; and

Level 3 - inputs for the asset or liability that are not based on observable market data.

**BLUERUSH MEDIA GROUP CORP.**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED JULY 31, 2011 AND 2010**

**2. SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Comprehensive Income**

Comprehensive income is composed of the Company's net income and other comprehensive income. The Company does not currently have any other comprehensive income and, accordingly, statements of comprehensive income and accumulated other comprehensive income have not been presented.

**Capital Disclosures**

CICA Handbook Section 1535 specifies the disclosures of (i) an entity's objectives, policies and processes for managing capital; (ii) quantitative data about what the entity regards as capital; (iii) whether the entity has complied with any capital requirements; and (iv) if it has not complied, the consequences of such non-compliance. The Company has included disclosures required by this Handbook section in note 11 to these consolidated financial statements.

**Use of Estimates**

The preparation of consolidated financial statements in conformity with Canadian GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenue and expenses during the year. Actual results could differ from those estimates. Significant areas requiring the use of management estimates relate to revenue recognition, the allowance for doubtful accounts, amounts of investment tax credits, useful lives of equipment, amounts of accrued liabilities, valuation allowance on future tax assets, the fair value of financial instruments, and several variables in calculating stock-based compensation.

**Future Accounting Changes**

On 13 February 2008, the Accounting Standards Board confirmed 1 January 2011 as the official changeover date for publicly listed Canadian companies to begin using International Financial Reporting Standards ("IFRS") in place of GAAP as the basis for preparation of financial statements. The Company will adopt IFRS commencing with consolidated financial statements for periods starting on August 1, 2011, with comparatives for the same periods in the prior year.

The Company has begun the process to transition from GAAP to IFRS. The analysis of IFRS in comparison with GAAP has identified presentation differences and there may be significant changes in certain areas following the adoption of IFRS.

IFRS 1, "First Time Adoption of International Financial Reporting Standards" provides entities which are adopting IFRS for the first time with a number of optional exemptions and mandatory exceptions to certain of the IFRS requirements for retrospective application of IFRS. The Company is analyzing the various choices and will implement those which are determined to be most appropriate to the Company's particular circumstances.

Under the terms of the plan, the number of common shares which may be issued pursuant to the exercise of options granted under the plan may not exceed 10% of the number of common shares outstanding at the time of grant.

The exercise price of an option granted under the plan cannot be less than the closing price of the common shares on the last day on which the common shares trade prior to the grant date of the option. An individual can receive grants of no more than 5% of the outstanding shares of the Company on a yearly basis and options are exercisable over a period not exceeding five years. Options vest according to the contract terms which range over a period of two to three years.

In accordance with CICA Handbook Section 3870, options granted are accounted for by the fair value method of accounting for stock-based compensation. The Company records compensation expense and credits contributed surplus for all options granted.

For the year ended July 31, 2011, no stock options were exercised or granted. Stock-based compensation expense of \$62,767 (2010 - \$34,504) was recorded relating to the stock options and warrants granted to directors, officers, employees and consultants of the Company (note 7).
